

As your elected Clerk Milena Kassel, it is my goal to ensure that all disciplines of this office, Motor Vehicle, Recording, and Elections operate with the highest integrity and compliance with State of Colorado statutes.

The Motor Vehicle department is in both Fairplay and Bailey for convenient service to the citizens and businesses of Park County. Registering and titling of vehicles, trailers, campers, RV's, heavy equipment, and motorcycles. We also provide fleet services for individuals or companies who own 10 or more vehicles. This is a very efficient, time-saving service for fleet owners as it allows streamlined renewals for their convenience, with once per year renewal for all vehicles. Staff prepares documentation that is mailed, once per year, to the fleet owners listing all vehicles up for renewal and the amount due. Once payment is received, all renewals are processed at once for them.

The Elections department consists of four Colorado Certified Election Officials who are dedicated to ensuring all of Park County elections are executed with the utmost integrity and in compliance with Colorado State and Federal laws. Staff undergo continuous training, both online and in-person, as well as annual recertification by the State of Colorado. Voters can visit the Colorado Secretary of State site, <http://www.govotecolorado.gov> for information on elections as well as register to vote or update their voter registration information.

The Recording Department is responsible for recording documents for real property transfers as well as other documents to be "of record". We also issue Marriage Licenses and provide copies of documents to the public. Coming soon is a "Recording Alert Notification System". This free service will allow a property owner to be notified of any documents recorded under their name, thus preventing any potential fraud.
